FTSE JPX Net Zero Japan 500 Index

Data as at: 31 August 2026

FTSE Russell has partnered with JPX to develop the FTSE JPX Net Zero Japan Index Series, which is designed to support investors seeking to integrate climate risks and opportunities into their portfolios and align them with the net zero climate goals. It sets portfolio decarbonisation targets which mirror the required emissions reduction efforts to limit global warming to 1.5DC.

Constituent weights vary to account for key climate considerations, including climate risks, opportunities and alignment with the low-carbon transition. The index series combines data and analysis from FTSE Russell and the Transition Pathway Initiative (TPI) and is designed to meet the minimum standards of EU Climate Transition Benchmarks.
