## FEATURES

### Objective

The index is designed for use in the creation of index tracking funds, derivatives and as a performance benchmark.

### Investability

Stocks are free-float weighted to ensure that only the investable opportunity set is included within the indexes.

### Liquidity

Stocks are screened to ensure that the index is tradable.

### Capping

The index is capped in order to be UCITS compliant.

### Transparency

The index uses a transparent, rules-based construction process. Index Methodologies are freely available on the FTSE Russell website.

### Availability

The index is calculated based on price and total return methodologies, both real time intra-second and end-of-day. A net of tax index is also available.

### Industry Classification Benchmark (ICB)

Index constituents are categorized in accordance with the Industry Classification Benchmark (ICB), the global standard for industry sector analysis.
