

# JP Morgan US Quality Factor Index

Data as at: 30 May 2025

The JP Morgan US Quality Factor Index is comprised of US securities selected from the Russell 1000® Index and uses a rules-based risk allocation and factor selection process developed in conjunction with J.P. Morgan Asset Management. The index is designed to reflect a sub-set of US securities selected for their factor characteristics. The index selects constituents based on their quality as measured by diversified definitions of their profitability, solvency, and earnings quality without undue concentration in individual securities.
