

FTSE Dividend Select Equal Weight Index Series

Data as at: 29 May 2026

The FTSE Dividend Select Equal Weight Index Series is designed to measure the performance of US companies that have successfully increased their dividend payments over a period of ten years. On a quarterly basis the highest-ranking companies based on momentum are selected and equally weighted to form the final index, capturing the Small, Mid, or Large cap domestic market. The indexes are designed to provide a benchmark for investors looking to capture a concentrated portfolio of constituents demonstrating increased dividends and positive momentum.

10-Year Performance - Total Return

10-Year Performance - Total Return

FEATURES

Objective

The indexes are designed for the creation of index tracking funds, derivatives and as a performance benchmark.

Investability

A transparent and replicable index construction strategy.

Liquidity

Stocks in the underlying universe are screened to ensure that the index is tradable.

Transparency

The index uses a transparent, rules-based construction process. Index Methodologies are freely available on the FTSE Russell website.

Availability

The index is calculated based on price and total return methodologies, available real-time and end of day.

Industry Classification Benchmark (ICB)

Index constituents are categorized in accordance with the Industry Classification Benchmark (ICB), the global standard for industry sector analysis.
