FTSE Shariah All-World Index

Data as at: 30 September 2026

The FTSE Shariah All-World Index is a market-capitalisation weighted index representing the performance of Shariah-compliant large and mid cap stocks from Developed and Emerging markets. Using the FTSE Global All-Cap Index as a base universe, constituents are screened against a clear set of Shariah principles. Shariah screening is undertaken by Yasaar Limited to create a Shariah-compliant index.

Business Activity Screening

Initially, companies involved in any of the following activities will be filtered out as non Shariah-compliant:

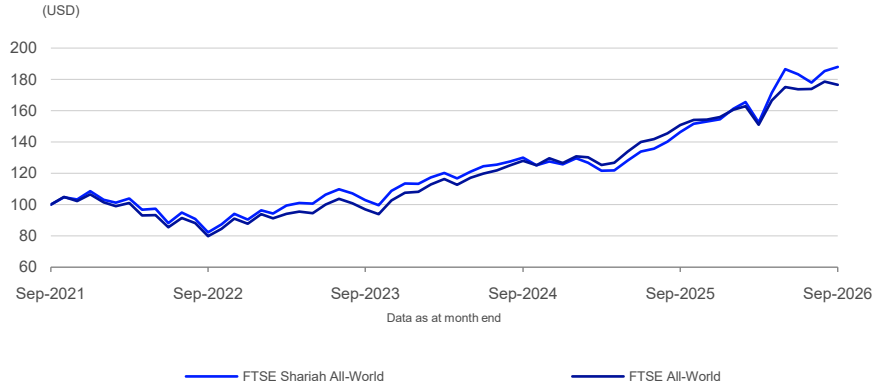

- Conventional finance (non-Islamic banking, finance and insurance, etc.);
- Alcohol;
- Pork related products and non-halal food production, packaging and processing or any other activity related to pork and non-halal food;
- Entertainment (casinos, gambling and pornography);
- Tobacco; weapons, arms and defence manufacturing.

Financial Ratios Screening

The remaining companies are then further screened on a financial basis. The following financial ratios must be met for companies to be considered Shariah-compliant:

- Debt is less than 33.333% of total assets;
- Cash and interest bearing items are less than 33.333% of total assets;
- Accounts receivable and cash are less than 50% of total assets;
- Total interest and non compliant activities income should not exceed 5% of total revenue.

FEATURES

Coverage

The FTSE Shariah All-World Index covers all Shariah-compliant large and mid cap stocks from Developed and Emerging markets.

Impartial

By partnering with Yasaar Ltd, an impartial consultancy and leading authority on Shariah, FTSE remains neutral and fully up to date with latest practices.

Fatwa-certified

The FTSE Yasaar Global Equity Shariah Index Series has been fully certified as Shariah-compliant through the issue of a Fatwa (Islamic legal opinion) by Yasaar's principals.

Asset-based debt screening

Unlike other competitor methodologies, a more conservative approach to Shariah compliance is ensured by rating debt ratio limits that are measured as a percentage of total assets, rather than more volatile measures that use 12 month trailing market capitalisation. This ensures companies do not pass the screening criteria due to market price fluctuation, allowing the methodology to be less speculative and more in keeping with Shariah principles.

School-neutral

Yasaar Limited scholars represent all of the major Shariah schools of thought, creating a best practices approach that has credibility across the Islamic world.

Industry Classification Benchmark (ICB)

Index constituents are categorised in accordance with the Industry Classification Benchmark (ICB), the global standard for industry sector analysis.
