

FTSE Global Sustainability-Linked Bond 0+ Years Index

Multi-Sector | Multi-Currency

The FTSE Global Sustainability-Linked Bond 0+ Years Index (Global SLB0+) is designed to measure the performance of both investment-grade and high-yield multi-currency Sustainability-Linked Bonds (SLBs) issued by government, government-sponsored, supranational, covered, and corporations. Its constituents are selected from various FTSE Fixed Income indices, screened in accordance with the transparent and defined SLBs criteria which are aligned with International Capital Markets Association (ICMA) Sustainability-Linked Bond Principles (SLBP).

SLBs are any type of bond instrument for which the financial and/or structural characteristics can vary depending on whether the issuer achieves predefined sustainability or ESG objectives. SLBs are a forward-looking performance-based instrument.
