

FTSE UK Dividend+ Index

Data as at: 28 March 2024

The FTSE UK Dividend+ Index is a yield weighted index designed to select and measure the performance of higher yielding stocks within the universe of the FTSE 350 Index, excluding investment trusts. Stocks are weighted by their one-year forecast dividend yield as opposed to market capitalisation.

The FTSE UK Dividend+ Index was created to allow investors to capture the long-term effect of higher compounding returns, and benefit from the lower correlations to traditional market cap weighted indices. The dividend information for the FTSE UK Dividend+ is provided by Markit Group Limited ("Markit"), the leading industry source for independent mark-to-market pricing, asset valuations, dividend forecasting and index services.

FEATURES

Coverage

The FTSE UK Dividend+ Index selects the top 50 stocks by one-year forecast dividend yield, and the constituents' weightings within the index are determined by their dividend yield as opposed to market capitalisation.

Objective

The index is designed for use in the creation of index tracking funds, derivatives and as a performance benchmark.

Liquidity

The index is subject to a liquidity test of GBP 75 million. Constituents that prevent the index from trading GBP 75 million within half a trading day are excluded from the index.

Transparency

The index uses a transparent, rules-based construction process. Index Rules are freely available on the FTSE website.

Availability

The index is calculated based on price and total return methodologies, both real time intra-second and end-of-day.

Industry Classification Benchmark

Index constituents are categorized in accordance with the Industry Classification Benchmark (ICB), the global standard for industry sector analysis.
