

FTSE Hong Kong and China Shariah Indices

Data as at: 30 April 2026

The FTSE Global Equity Shariah Index Series has been designed to be used as the basis of Shariah compliant investment products that meet the requirements of Islamic investors globally.

Using the Large and Mid Cap stocks from the FTSE Global Equity Index Series as a base universe, constituents are then screened against a clear set of Shariah principles. Shariah screening is undertaken by Yasaar Limited, to create a Shariah compliant index series. The FTSE Hong Kong and China Shariah Indices contain Hong Kong and China stocks that meet these criteria. Their approach is described below.

Business Activity Screening

Initially, companies involved in any of the following activities will be filtered out as non Shariah-compliant:

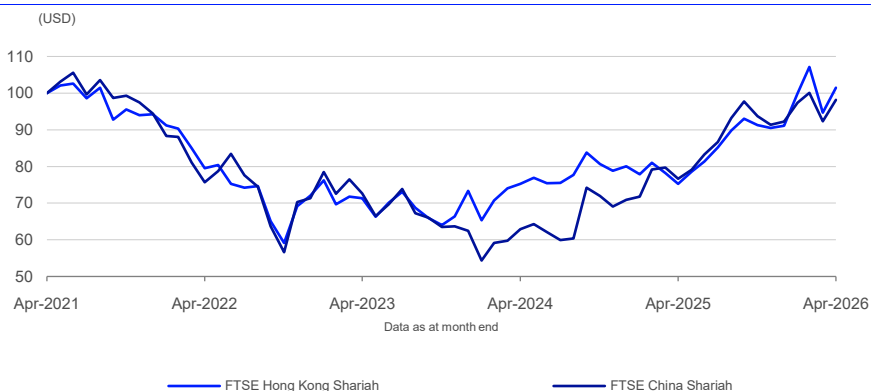

- Conventional finance (non-Islamic banking, finance and insurance, etc.);
- Alcohol;
- Pork related products and non-halal food production, packaging and processing or any other activity related to pork and non-halal food;
- Entertainment (casinos, gambling and pornography);
- Tobacco; weapons, arms and defence manufacturing.

Financial Ratios Screening

The remaining companies are then further screened on a financial basis. The following financial ratios must be met for companies to be considered Shariah-compliant:

- Debt is less than 33.333% of total assets;
- Cash and interest bearing items are less than 33.333% of total assets;
- Accounts receivable and cash are less than 50% of total assets;
- Total interest and non compliant activities income should not exceed 5% of total revenue.

FEATURES

Coverage

The FTSE Global Equity Shariah Index Series covers all regions across both developed and emerging markets, to create a comprehensive Shariah indexing solution.

Impartial

By partnering with Yasaar Ltd, an impartial consultancy and leading authority on Shariah, FTSE remains neutral and fully up to date with latest practices. See www.yasaar.org for more information.

Fatwa-certified

The FTSE Global Equity Shariah Index Series has been fully certified as Shariah-compliant through the issue of a Fatwa (Islamic legal opinion) by Yasaar's principals.

Asset-based debt screening

Unlike other competitor methodologies, a more conservative approach to Shariah compliance is ensured by rating debt ratio limits that are measured as a percentage of total assets, rather than more volatile measures that use 12 month trailing market capitalisation. This ensures companies do not pass the screening criteria due to market price fluctuation, allowing the methodology to be less speculative and more in keeping with Shariah principles.

School-neutral

Yasaar Limited scholars represent all of the major Shariah schools of thought, creating a best practices approach that has credibility across the Islamic world.

Industry Classification Benchmark (ICB)

Index constituents are categorised in accordance with the Industry Classification Benchmark (ICB), the global standard for industry sector analysis.
