Data as at: 29 March 2024

The FTSE Divest-Invest Index Series is designed to incorporate a combination of rules-based strategies to reduce exposure to companies from certain ICB subsectors associated with high carbon economy and increased exposure to companies engaged in the transition to a green economy.

Data is sourced from FTSE Russell's Green Revenues model, and is designed to capture changes in the revenue mix of companies as their business models shift to the delivery of goods, products and services that allow the world to adapt to, mitigate or remediate the impacts of climate change, resource depletion and environmental erosion.
