

# FTSE/JSE Shariah Top 40 Index

Data as at: 29 April 2022

The FTSE/JSE Africa Index Series is designed to represent the performance of South African companies, providing investors with a comprehensive and complementary set of indices, which measure the performance of the major capital and industry segments of the South African market.

The FTSE/JSE Shariah Top 40 Index has been designed to be used as the basis of Shariah-compliant investment products that meet the requirements of Islamic investors in South Africa and internationally. Independent screening is carried out by Yasaar Limited, an organisation with a global network of expert Shariah scholars. Their approach is described below.

In addition to the FTSE/JSE Shariah Top 40 Index, there is also a capped version - the FTSE/JSE Capped Shariah Top 40 Index - in which constituents are capped at 10% of the total index to avoid concentration in any individual stock.

## Business Activity Screening

Initially, companies involved in any of the following activities will be filtered out as non Shariah-compliant:

- Conventional finance (non-Islamic banking, finance and insurance, etc.);
- Alcohol;
- Pork related products and non-halal food production, packaging and processing or any other activity related to pork and non-halal food;
- Entertainment (casinos, gambling and pornography);
- Tobacco; weapons, arms and defence manufacturing.

## Financial Ratios Screening

The remaining companies are then further screened on a financial basis. The following financial ratios must be met for companies to be considered Shariah-compliant:

- Debt is less than 33.333% of total assets;
- Cash and interest bearing items are less than 33.333% of total assets;
- Accounts receivable and cash are less than 50% of total assets;
- Total interest and non compliant activities income should not exceed 5% of total revenue.

Unlike other competitor methodologies, a more conservative approach to Shariah compliance is ensured by rating debt ratio limits that are measured as a percentage of total assets, rather than more volatile measures that use 12 month trailing market capitalisation. This ensures companies do not pass the screening criteria due to market price fluctuation, allowing the methodology to be less speculative and more in keeping with Shariah principles.

## FEATURES

### Coverage

Shariah-compliant stocks in the FTSE/JSE Top 40 Index.

### Objective

The index is designed for use in the creation of Shariah-compliant investment products and as a benchmark.

### Investability

Stocks are selected and weighted to ensure that the index is investable.

### Liquidity

Stocks are screened to ensure that the index is tradable.

### Transparency

The index uses a transparent, rules-based construction process. Index Rules are freely available on the FTSE website.

### School-neutral

Yasaar Limited scholars represent all of the major Shariah schools of thought, creating a best practices approach that has credibility across the Islamic world.

### Industry Classification Benchmark

Index constituents are categorized in accordance with the Industry Classification Benchmark (ICB), the global standard for industry sector analysis.

### Shariah Methodology

See [www.yasaar.org](http://www.yasaar.org) for further information on Yasaar Research Inc.

## 5-Year Performance - Total Return

## Performance and Volatility - Total Return

Index (ZAR)	Return %						Return pa %*		Volatility %**		
	3M	6M	YTD	12M	3YR	5YR	3YR	5YR	1YR	3YR	5YR
FTSE/JSE Shariah Top 40	6.6	21.9	10.0	20.5	61.2	93.4	17.2	14.1	26.3	29.4	22.0
FTSE/JSE Top 40	-1.7	9.8	-0.5	12.1	39.2	64.1	11.7	10.4	18.6	23.3	15.7

\* Compound annual returns measured over 3 and 5 years respectively

\*\* Volatility – 1YR based on 12 months daily data. 3YR based on weekly data (Wednesday to Wednesday). 5YR based on monthly data

## Year-on-Year Performance - Total Return

Index % (ZAR)	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021
