

# FTSE ST China Indices

Data as at: 30 June 2021

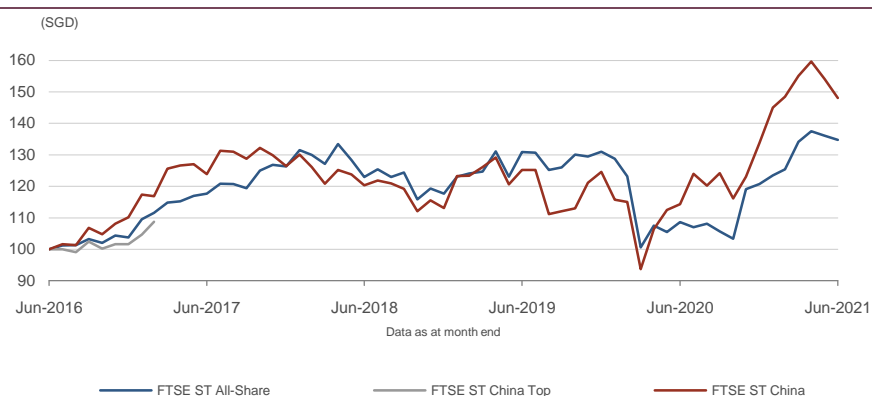

The FTSE ST Index Series includes two China themed indices – the FTSE ST China Index and the FTSE ST China Top Index. The FTSE ST China Index is based on the underlying constituents of the FTSE ST All-Share Index, which have the majority of their sales revenue derived from or operating assets located in Mainland China. The FTSE ST China Top Index is a subset of the FTSE ST China Index and aims to capture the performance of the 20 largest Chinese-listed companies on the SGX Main Board by full market capitalisation.

Companies eligible for inclusion in the FTSE ST China Index and/or the FTSE ST China Top Index must feature in the FTSE ST All-Share Index and at each review derive either:

- At least 50% of their sales revenue from Mainland China; or,
- At least 50% of their operating assets are located in Mainland China.

Buffers are incorporated at the review to reduce index turnover when selecting Chinese companies, and when selecting the 20 companies of the FTSE ST China Top Index.
