

FTSE MPF World Government Bond Index

Sovereign | Multi-Currency

The FTSE MPF World Government Bond Index (MPF WGBI) is designed to help users comply with the regulatory requirements governing investments in debt securities by Hong Kong Mandatory Provident Fund schemes. The index is based on the FTSE World Government Bond Index (WGBI) which measures the performance of fixed-rate, local currency, investment-grade sovereign bonds. The WGBI is a widely used benchmark that currently comprises sovereign debt from over 20 countries, denominated in a variety of currencies, and has more than 30 years of history available.

The FTSE MPF World Government Bond Index incorporates additional criteria¹ as stipulated by the Mandatory Provident Fund Schemes (General) Regulation and Guidelines on Debt Securities. FTSE Russell works closely with the Hong Kong Investment Funds Association (HKIFA) and Willis Towers Watson to ensure that the index appropriately reflects Hong Kong Mandatory Provident Fund Schemes Authority (MPFA) rules.
