

FTSE Developed Europe ex UK Defensive and Dynamic Indices

Data as at: 30 April 2025

The FTSE Global Stability Index Series is designed to reflect the performance of securities that have defensive or dynamic characteristics. FTSE Russell classifies stocks as Defensive or Dynamic, using three variables related to quality, and two related to volatility. Debt to equity ratio (D/E ratio), return on assets (ROA), and earnings per share variability (EPS Variability) are used to determine quality. Local currency total return volatility calculated over the latest 52 weeks and 60 months is used to determine volatility.

The FTSE Developed Europe ex UK Defensive Index measures the performance of the investable securities in the Developed Europe excluding UK defensive segment of the market, which includes relatively more stable securities. The FTSE Developed Europe ex UK Dynamic Index measures the performance of the investable securities in the Developed Europe excluding UK dynamic segment of the market, which includes relatively less stable securities. The indices are constructed to provide a comprehensive and unbiased barometer for this market segment and is reviewed annually to accurately reflect the changes in the market over time.
