FEATURES

Coverage

The index is a subset of the FTSE EPRA Nareit Developed Asia Index that incorporates Real Estate Investment Trusts (REITs) and Real Estate Holding & Development companies.

Methodology

Captures stocks that have a forecasted dividend yield of equal/greater than 2%.

Diversified Investment Opportunities

The index series provides investors with the diversification that real estate offers due to its low correlation with other asset classes, along with sufficient liquidity.

Objective

The index is designed for use in the creation of index tracking funds, derivatives and as a performance benchmark.

Investability

Stocks are selected and weighted to ensure that the index is investable.

Liquidity

Stocks are screened to ensure that the index is tradable.

Transparency

The index uses a transparent, rules-based construction process. Index Methodologies are freely available on the FTSE Russell website.

Availability

The index is calculated based on price and total return methodologies, both real time and end-of-day. A Net Total Return index is also available.

Property Sector Classification

Constituents are classified into distinct Property Sectors based on gross invested book assets as disclosed in the latest published financial statement.
