FEATURES

Transparency

Index governance is overseen by the FTSE Russell ESG Advisory Committee. The membership of the Committee includes independent investment professionals experienced in environmental, social and governance factors.

Criteria

Companies need to meet a variety of ESG criteria to meet the inclusion requirements - please see the Index Rules at www.ftserussell.com for details.

Objective

The index is designed for use in the creation of index tracking funds, exchange traded products and as a performance benchmark.

Investability

Stocks in the underlying index are selected and weighted to ensure that the index is investable

Liquidity

Stocks in the underlying index are screened to ensure that the index is tradable.

Industry Neutrality

Capping is applied in conjunction with industry neutrality to maintain investability.

Availability

The index is calculated based on price and total return methodologies, available end-of-day.

Industry Classification Benchmark (ICB)

Index constituents are categorised in accordance with the Industry Classification Benchmark (ICB), the global standard for industry sector analysis.
