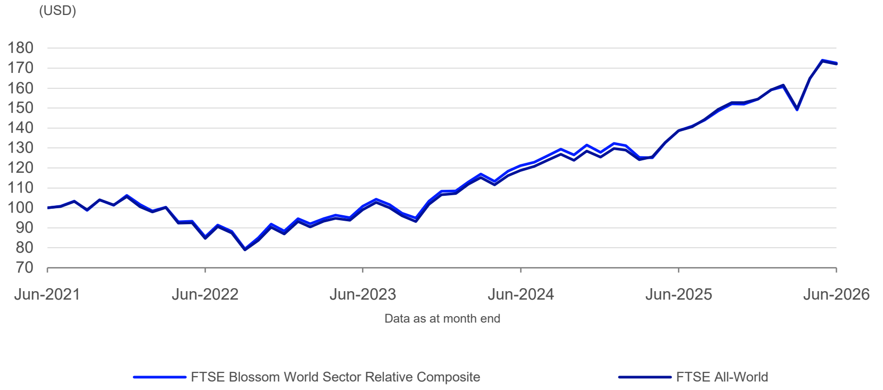
FTSE Russell Factsheet

FTSE Blossom World Composite Sector Relative Index

Data as at: 30 June 2026

The FTSE Blossom World Composite Sector Relative Index is designed as a sector neutral benchmark that reflects the performance of the companies demonstrating specific environmental, social and governance practices (ESG) globally. In addition, the index is designed to support the transition to a low carbon economy by evaluating companies' climate governance activities aligned with the Taskforce on Climate-related Financial Disclosures' recommendations and carbon emissions intensity to determine stock eligibility for index inclusion. The index combines data and analysis from FTSE Russell and the Transition Pathway Initiative (TPI). For further information about the TPI, please visit https://transitionpathwayinitiative.org/

5-Year Performance - Total Return



Performance and Volatility - Total Return

FEATURES

Transparency

Index governance is overseen by the FTSE Russell ESG Advisory Committee. The membership of the Committee includes independent investment professionals experienced in environmental, social and governance factors.

Criteria

Companies need to meet a variety of ESG criteria to meet the inclusion requirements - please see the Index Rules at www.ftserussell.com for details.

Objective

The index is designed for use in the creation of index tracking funds, exchange traded products and as a performance benchmark.

Investability

Stocks in the underlying index are selected and weighted to ensure that the index is investable.

Liquidity

Stocks in the underlying index are screened to ensure that the index is tradable.

Sector Neutrality

Capping is applied in conjunction with sector neutrality to maintain investability.

Availability

The index is calculated based on price and total return methodologies, available end-of-day.

Industry Classification Benchmark (ICB)

Index constituents are categorised in accordance with the Industry Classification Benchmark (ICB), the global standard for industry sector analysis.
