

# FTSE RAFI™ UK 300 Index – QSR

Data as at: 30 April 2025

FTSE partners with Research Affiliates on the innovative FTSE RAFI Index Series. Index constituents are weighted using a composite of fundamental factors, including total cash dividends, free cash flow, total sales and book equity value. Prices and market values are not determinants of the index weights. Consequently the indices are less prone to excessive concentration arising from market fads, which can result in over-exposure to individual companies, sectors or countries.

The FTSE RAFI UK 300 Index comprises the 300 companies with the largest RAFI fundamental scores selected from the constituents of the FTSE All-Share Index.
