

# FTSE RAFI™ Sweden All Cap Index

Data as at: 30 April 2025

FTSE partners with Research Affiliates on the FTSE RAFI Index Series. Index constituents are weighted using a composite of fundamental factors, including total cash dividends, free cash flow, total sales and book equity value. Prices and market values are not determinants of the index weights. Consequently the indices are less prone to excessive concentration arising from market fads, which can result in over-exposure to individual companies, sectors or countries.

The FTSE RAFI Sweden All Cap Index is part of the FTSE RAFI Country Index Series. The index comprises all Swedish stocks in the FTSE RAFI Developed ex US 1000 Index.
