FEATURES

Objective

The index is designed for use in the creation of index tracking funds, derivatives and as a performance benchmark.

Investability

Stocks are selected and weighted to ensure that the index is investable.

Liquidity

Stocks are screened to ensure that the index is tradable.

Transparency

The index uses a transparent, rules-based construction process. Index methodologies are freely available on the FTSE Russell website.

Availability

The index is calculated based on price and total return methodologies, available end of day.

Industry Classification Benchmark (ICB)

ICB is a comprehensive and rules based, transparent classification methodology based on research and market trends designed to support investment solutions. It was launched in 2005 and enhanced in 2019 with the integration of the Russell Global Sectors (RGS) classification scheme and additional structural enhancements.

This index transitioned to ICB on September 21, 2020, with historical data prior to that date reflecting the legacy RGS classification.
