

FTSE ESG Select EMU Government Bond Index

Sovereign | Euro

The FTSE ESG Select EMU Government Bond Index (ESG Select EGBI) measures the performance of EMU countries in the FTSE ESG Select World Government Bond Index – Developed Markets (ESG Select WGBI-DM). The index inherits the same country exclusions as the FTSE ESG Select WGBI-DM, but incorporates ESG exposures relative to the EMU universe. The index applies a 35% issuer capping to ensure diversification. After the application of issuer capping, the index weights are reviewed to ensure the index exposures sufficiently meet the overall minimum 20% removal by market values of the lowest scoring ESG issuers of the FTSE EMU Government Bond Index (EGBI). In the event the index does not sufficiently meet the 20% market value reduction, the FTSE ESG Select EGBI will remove additional issuers until removal of 20% of the initial investment universe is achieved.

The index only contains countries that are greater than 15 percent of ranked countries by ESG in the WGBI universe and will exclude countries when they fall below 10 percent of ranked countries by ESG. The index also excludes countries that are not designated as "Free" by Freedom House.
