

# FTSE ESG Select World Government Bond Index - DM

Sovereign | Multi-Currency

The FTSE ESG Select World Government Bond Index - DM (ESG Select WGBI-DM) is designed to measure the performance of the countries included in the FTSE World Government Bond Index –Developed Markets (WGBI-DM) accounting for ESG exposures. The index is built upon the same ESG framework established for the FTSE ESG Government Index Series but with more stringent ESG tilts incorporating exclusions for those countries with relatively lower ESG performance. The index applies ESG criteria to the market capitalization WGBI by tilting country ESG exposures relative to the Base Index, overweighting higher ESG performing countries and underweighting lower ESG performing countries.

The index only contains countries that are greater than 15 percent of ranked countries by ESG and will exclude countries when they fall below the 10 percent of ranked countries by ESG. The index also excludes countries that are not designated as “Free” by Freedom House.
