

FTSE Goldman Sachs UK Gilts 1-10 Years Index

Sovereign | Multi-Currency

The FTSE Goldman Sachs UK Gilts 1-10 Years Index ("Index") measures the performance of fixed-rate, UK government bonds. The Index is created from a starting universe of the FTSE UK Government Bond Index ("Base Index"), screened for maturity, and utilizes an optimization process to select securities and determine weights such that projected return for a given level of risk is maximized. The Index aims to maximize one-month projected return by ensuring the return volatility of the Index remains below a preset level, the term structure is constrained within a band relative to the Base Index, and the duration matches the Base Index.
