

FTSE ESG Emerging Markets Government Bond Index - Capped

Sovereign | Multi-Currency

The FTSE ESG Emerging Markets Government Bond Capped Index (ESG EMGBI-Capped) measures the performance of fixed-rate, local currency sovereign bonds in the FTSE Emerging Markets Government Bond Capped Index while incorporating a tilting methodology that adjusts index weights according to each country's relative Environmental, Social and Governance (ESG) performance.

The FTSE ESG EMGBI-Capped assigns weights to each country based on the capped market capitalization of its index eligible debt, as well as its relative ESG performance, measured across three distinct and quantitative pillars: Environmental, Social & Governance. The unique ESG performance assessment that underpins the FTSE ESG EMGBI-Capped is designed to achieve improved ESG performance for the sovereign bond asset class utilizing innovative geometric tilts on E, S & G pillars. The ESG pillars are based on ESG factors developed as part of the Sovereign Risk Monitor (SRM) model by Beyond Ratings.
