

FTSE Custom Digital Asset Infrastructure Index

About the index

The FTSE Custom Digital Asset Infrastructure Index is a comprehensive benchmark developed to measure the performance of digital assets with a primary use case as infrastructure protocols. The Index includes smart contract platforms, interoperability solutions, and decentralised storage solution digital assets that support the functionality and growth of the digital asset market. Index eligibility starts with assets classified as Smart Contract Platforms, Protocol Interoperability, Notarization and Supply Chain Management, and Distributed Computation and Storage as denoted in the DAR Digital Asset Industry Taxonomy. The index is rebalanced quarterly to measure the performance of the broad digital market trends.

The FTSE Global Digital Asset Index Series leverages the FTSE DAR Reference Price. The underlying price employs a methodology designed to capture high quality data from digital asset exchanges vetted for governance, regulatory compliance, and technical capabilities.

The index is published daily Sunday to Friday at 6pm HKT in USD.
