

# FTSE Global Social Impact Bond Index

Multi-Sector | Multi-Currency

The FTSE Global Social Impact Bond Index (Global Social Impact) provides a comprehensive measure of the global social bond market across various asset classes and credit sectors. Its constituents are selected from various FTSE Fixed Income indices, screened in accordance with the transparent and defined social bond criteria.

The Global Social Impact leverages LSEG Reference Data Services to identify underlying bonds that are in compliance with corresponding international guidelines. Specifically, LSEG Reference Data Services identifies eligible Social Bonds that are in line with the core components of International Capital Markets Association (ICMA) Social Bond Principles (SBP).

The Global Social Impact measures the performance of both investment-grade and high-yield multi-currency social debt issued by government, government-sponsored, supranational, covered, and corporations.

## INDEX PROFILE

| Description                 | # of Issues | Par Amount*   | Market Value* | Market Weight (%) | Average Coupon (%) | Average Life (Years) | Yield to Maturity (%) | Effective Duration | OAS (bps) |
|-----------------------------|-------------|---------------|---------------|-------------------|--------------------|----------------------|-----------------------|--------------------|-----------|
| <b>Global Social Impact</b> | <b>441</b>  | <b>518.16</b> | <b>475.43</b> | <b>100.00</b>     | <b>1.90</b>        | <b>7.17</b>          | <b>3.01</b>           | <b>5.79</b>        | <b>48</b> |

Index returns shown may not represent the results of the actual trading of investable assets. Certain returns shown may reflect back-tested performance. All performance presented prior to the index inception date is back-tested performance. Back-tested performance is not actual performance, but is hypothetical. The back-test calculations are based on the same methodology that was in effect when the index was officially launched. However, back-tested data may reflect the application of the index methodology with the benefit of hindsight, and the historic calculations of an index may change from month to month based on revisions to the underlying economic data used in the calculation of the index.
