FEATURES

Coverage

The FTSE All-Share Index was originally called the FT Actuaries All-Share Index at its inception in 1962. The index was enhanced with the addition of two new sub-indices, the FTSE 100 and the FTSE 250, in January 1984 and October 1992, respectively.

Objective

The index is designed for use in the creation of index tracking funds, derivatives and as a performance benchmark.

Investability

Stocks are selected and weighted to ensure that the index is investable.

Liquidity

Stocks are screened to ensure that the index is tradable.

Transparency

The index uses a transparent, rules-based construction process. Index methodologies are freely available on the FTSE Russell website.

Availability

The index is calculated based on price and total return methodologies, end-of-day.

Industry Classification Benchmark (ICB)
