## FEATURES

### Coverage

In addition to the global index, three sub-indexes for the EMEA, Americas and Asia Pacific regions are calculated.

### Objective

The indexes are designed for the creation of index tracking funds, derivatives and as a performance benchmark.

### Investability

Stocks are selected and weighted to ensure that the index is investable.

### Transparency

The indexes use a transparent, rules-based construction process. Index Rules are freely available on the FTSE Russell website.

### Availability

The index is calculated based on price and total return methodologies, and available end-of-day.

### Industry Classification Benchmark

Index constituents are categorized in accordance with the Industry Classification Benchmark (ICB), the global standard for industry sector analysis.
