

JP Morgan Diversified Factor Global Developed (Region Aware) Equity Index

Data as at: 29 February 2024

The JP Morgan Diversified Factor Indexes are comprised of large and mid-cap equity securities selected from the FTSE Developed Index, and use a rules-based risk allocation and multifactor selection process developed in conjunction with J.P. Morgan Asset Management. The indexes are designed to reflect the performance of stocks representing a diversified set of factor characteristic. Constituents are selected using investment characteristics including earnings and dividend yields, positive price momentum, low volatility and earnings quality. The index aligns country weightings to the underlying index, and then seeks to equally diversify risk across industries.
