FTSE Canada Investment Grade 1-5 Year Laddered Corporate Bond Index
v3.1
Section 1

Introduction

1.0 Introduction

1.1 The FTSE Canada Investment Grade 1-5 Year Laddered Corporate Bond Index

1.1.1 The FTSE Canada 1-5 Year Laddered Corporate Bond Index measures the return of a 1-5 year bond ladder in Investment Grade Corporate Bonds (rated BBB or higher).

1.2 The FTSE Canada Investment Grade 1-5 Year Laddered Corporate Bond Index does not take account of ESG factors in its index design.

1.3 IOSCO

1.3.1 FTSE International Limited (FTSE) considers that the FTSE Canada Investment Grade 1-5 Year Laddered Corporate Bond Index meets the IOSCO Principles for Financial Benchmarks as published in July 2013.

Full details can be accessed at www.iosco.org.

Details of FTSE Russell’s Statement of Compliance with respect to the IOSCO Principles can be accessed using the following link:

IOSCO Statement of Compliance.

1.4 FTSE hereby notifies users of the index that it is possible that circumstances, including external events beyond the control of FTSE, may necessitate changes to, or the cessation, of the index and therefore, any financial contracts or other financial instruments that reference the index or investment funds which use the index to measure their performance should be able to withstand, or otherwise address the possibility of changes to, or cessation of, the index.

1.5 Index users who choose to follow this index or to buy products that claim to follow this index should assess the merits of the index’s rules-based methodology and take independent investment advice before investing their own or client funds. No liability whether as a result of negligence or otherwise is accepted by FTSE nor its subsidiary undertakings (or any person concerned with the preparation or publication of these Ground Rules) for any losses, damages, claims and expenses suffered by any person as a result of:

- any reliance on these Ground Rules, and/or
- any errors or inaccuracies in these Ground Rules, and/or
- any non-application or misapplication of the policies or procedures described in these Ground Rules, and/or
- any errors or inaccuracies in the compilation of the Index or any constituent data
1.6  These Ground Rules
1.6.1 This document sets out the Ground Rules for the construction and management of the FTSE Canada Investment Grade 1-5 Year Laddered Corporate Bond Index.

1.7  FTSE Russell

1.8  Ladder Construction Overview
1.8.1 Selected securities are placed into five maturity buckets. Maturity buckets are 1-1.99 years, 2-2.99 years, 3-3.99 years, 4-4.99 years, and 5-5.99 years. On each annual rebalancing, the bonds from each maturity roll out to the next lower bucket. Bonds with a remaining maturity of less than one year are sold, with the proceeds being used to invest in the longest maturity bucket.

1.9  Index Ratings¹
1.9.1 Bonds in the index are classified based on information from Dominion Bond Rating Service, Standard and Poor's Corporation, Moody's Investors Service and Fitch. The index does not distinguish between minor ratings notches, such as plus or minus signs or their equivalent within a broad letter category. Thus, the ratings A+, A-, and A are viewed as equivalent for the purposes of the index. Additionally, the index does not take into account a rating agency's outlook for a credit rating, or whether a particular rating may be under review by an agency.

In cases where the agencies do not agree on the credit rating, the bond will be classified according to the following rules:

- If two agencies rate a security, use the lower of the two ratings;
- If three agencies rate a security, use the middle of the three ratings;
- If four agencies rate a security, use the middle of the three lowest ratings

1.9.2 An issuer rating may be applied for bonds classified as Government or Financial if security-level ratings are not available.

1.10  Capital Index (also known as the Price Index or the Clean Price Index)
1.10.1 The capital index tracks the notional weighted average change in the prices of the index constituents and is calculated every business day.

1.11  Total Return Index (also known as the Performance Index)
1.11.1 A total return index is calculated for the index. A total return index takes into account the price changes and interest accrual and payments of each bond.

1.11.2 In addition to the Capital Index and Total Return Index, the following index analytics are also calculated:
• Average Coupon
• Average Yield to Maturity
• Average Time to Maturity
• Value of 01
• Average Macaulay Duration
• Average Modified Duration
• Average Convexity
• The sum of the nominal value of all bonds in each index

¹ Effective 15 April 2019
• The number of bonds in each Index, and
• The weight of the index in relation to its relevant aggregated index (when applicable)

1.12 The base currency of the benchmark is CAD.
Section 2

Management Responsibilities

2.0 Management Responsibilities

2.1 FTSE International Limited (FTSE)

2.1.1 FTSE is the benchmark administrator of the index.²

2.1.2 FTSE is responsible for the daily calculation, production and operation of the FTSE Canada Investment Grade 1-5 Year Laddered Corporate Bond Index and will:

- maintain records of all the constituents;
- be responsible for the addition and deletion of bonds and changes of nominal amounts, in accordance with the Ground Rules.

2.1.3 These Ground Rules set out the methodology and provide information about the publication of the FTSE Canada Investment Grade 1-5 Year Laddered Corporate Bond Index.

2.2 FTSE Canada Fixed Income Advisory Committee

2.2.1 The FTSE Canada Fixed Income Advisory Committee is established by FTSE Russell.

2.2.2 The purpose of the Committee is to provide a forum for FTSE Russell to interact with index users and other stakeholders with a view to enhancing the underlying methodologies of FTSE Russell indexes.

2.2.3 The Terms of Reference of the FTSE Canada Fixed Income Advisory Committee are set out on the FTSE Russell website and can be accessed using the following link:

FTSE_Canada_Fixed_Income_Advisory_Committee.pdf

2.3 Amendments to these Ground Rules

2.3.1 These Ground Rules shall be subject to regular review (at least once a year) by FTSE Russell to ensure that they continue to best reflect the aims of the index. Any proposals for significant amendments to these Ground Rules will be subject to consultation with FTSE Russell advisory committees and other stakeholders if appropriate. The feedback from these consultations will be considered by the FTSE Russell Product Governance Board before approval is granted.

² The term administrator is used in this document in the same sense as it is defined in Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the European Benchmark Regulation).
2.3.2 As provided for in the Statement of Principles for FTSE Fixed Income Indexes, where FTSE Russell determines that the Ground Rules are silent or do not specifically and unambiguously apply to the subject matter of any decision, any decision shall be based as far as practical on the Statement of Principles. After making any such determination, FTSE Russell shall advise the market of its decision at the earliest opportunity. Any such treatment will not be considered as an exception or change to the Ground Rules, or to set a precedent for future action, but FTSE Russell will consider whether the Rules should subsequently be updated to provide greater clarity.
Section 3

FTSE Russell Index Policies

3.0 FTSE Russell Index Policies

These Ground Rules should be read in conjunction with the following policy documents which can be accessed using the links below:

3.1 Queries and Complaints

FTSE Russell’s complaints procedure can be accessed using the following link:

Benchmark_Determination_Complaints_Handling_Policy.pdf

3.2 Guide to the Calculation Methods for the FTSE Fixed Income Indexes

3.2.1 For a description of the methodology used to calculate the index and bond level analytics, please consult the Guide to Calculation Methods for FTSE Fixed Income indexes, which can be found using the following link:

FTSE_Fixed_Income_Index_Guide_to_Calculation.pdf

3.3 Statement of Principles for FTSE Fixed Income Indexes (the Statement of Principles)

Indexes need to keep abreast of changing markets and the Ground Rules cannot anticipate every eventuality. Where the Ground Rules do not fully cover a specific event or development, FTSE Russell will determine the appropriate treatment by reference to the Statement of Principles for FTSE Fixed Income Indexes which summarises the ethos underlying FTSE Russell’s approach to index construction. The Statement of Principles is reviewed annually and any changes proposed by FTSE Russell are presented to the FTSE Russell Policy Advisory Board for discussion before approval by the FTSE Russell Product Governance Board.

The Statement of Principles for Fixed Income Indexes can be accessed using the following link:

3.4 Price Sources

3.4.1 For further information, please see the FTSE Canada Multi Dealer Pricing Methodology Guide which can be accessed using the following link:

FTSE_Canada_Multi_Dealer_Pricing_Methodology_Guide.pdf
3.5 Recalculation Policy and Guidelines

The Recalculation Policy and Guidelines for Fixed Income Indexes document is available from the FTSE Russell website using the link below or by contacting info@ftserussell.com.

Fixed_Income_Recalculation_Policy_and_Guidelines.pdf

3.6 Policy for Benchmark Methodology Changes

3.6.1 Details of FTSE Russell’s policy for making benchmark methodology changes can be accessed using the following link:

Policy_for_Benchmark_Methodology_Changes.pdf
Section 4

Eligibility Criteria

4.0 Eligibility Criteria

4.1 Eligible Bonds

4.1.1 Eligible bonds are all constituents of the FTSE Canada Universe Bond Index at the time they are added to the index.

4.1.2 The FTSE Canada Investment Grade 1-5 Year Laddered Corporate Bond Index consists of bonds issued by Canadian corporations rated BBB or higher. At the time they are added to the index, eligible securities must be within 5 years of their issue date and have recorded at least 20 trades of size $500k or greater over the 3 months preceding the Selection Date, as reported by the Canadian Depository for Securities (CDS).

4.1.3 In order to be eligible for the indexes bonds must have a price assigned from a price source as specified in Section 5 of these Ground Rules.

4.2 Minimum Issue Size

Bonds must have a notional size of at least $300 million in order to be eligible for the FTSE Canada Investment Grade 1-5 Year Laddered Corporate Bond Index.

4.3 Exclusions

Bonds classified as Corporate Securitization (mainly ABS) and amortizing issues are excluded.
Section 5

Price Sources

5.0 Price Sources

5.1 The securities are priced using inputs from leading fixed income broker / dealers in Canada at 4:00pm Eastern Time. Further details are available in the FTSE Canada Multi Dealer Pricing Methodology Guide. Normal settlement rules apply (e.g. 2 day settlement for Canada bonds under 3 years to maturity, 3 day settlement for most other bonds) and the derived single quote per issue, or data, (Multi Dealer quote) is devised using proprietary filters that first remove any severe outliers, followed by a Standard Deviation Mean calculation. This Multi Dealer data best represents the marketplace by removing the ability of any one dealer to have undue influence upon the final calculated price / yield. The index is constructed using mid-market prices.

Valuation at the 4:00pm close is based on the trader's judgment of where a security should be priced, taking into account such factors as where the security previously traded, liquidity, and any market-wide as well as security-specific developments that can be expected to affect the price. This policy is intended to reflect changing market conditions, even in cases where a security may not frequently trade.

For securities that trade actively, the closing price will generally be close to where the security last traded, if not the same. For securities that trade less frequently, however, there could be a larger difference between the closing price and the price where the security last traded. Consider the extreme case of a security that trades in the morning, is subsequently and unexpectedly downgraded, and does not trade for the rest of the day. When setting the 4:00pm price, it is more accurate and conservative for the trader to reflect the expected impact of the credit rating downgrade, rather than simply rely on the latest available transaction.

For further information, please see the FTSE Canada Multi Dealer Pricing Methodology Guide which can be accessed using the following link:

FTSE_TMX_Canada_Multi_Dealer_Pricing_Methodology_Guide.pdf
Section 6

Periodic Changes to the Portfolios

6.0 Periodic Changes to the Portfolios

6.1 Rebalancing the Indexes

6.1.1 The FTSE Canada Investment Grade 1-5 Year Laddered Corporate Bond Index is reviewed annually on 30 June the Selection Date for the purpose of determining eligible bonds is 15 June.

6.2 Rolling Buckets

6.2.1 Bonds roll out to the next lower bucket on the review date. Bonds with less than 1 year to maturity roll out of the first bucket at mid-market prices on that day. The index will reinvest the full market value of all roll-out securities into the longest bucket at full units.

6.3 Addition of Constituents

6.3.1 New bonds will be added to the 5-6 year maturity bucket by selecting the longest maturities within the range among bonds with adequate liquidity, unless otherwise specified. The following additional selection criteria apply:

6.3.2 Prior to 2015, the target number of bonds for new ladder rungs was 5. From 2015 onwards, the target number of bonds in a rung will be 10. Existing rungs will retain the target number of bonds they were created with. If fewer than the target number of bonds qualify as eligible, the rung will be created with as many bonds as qualify. All bonds will be weighted equally.

Bonds are added when creating a new rung on the ladder or when an existing rung has fewer than the target number of bonds.

The process for adding new bonds is to repeat the following steps until the desired number of bonds is added:

- Identify eligible bonds with the desired maturity range (5-6 years for a new ladder rung)
- Order the bonds by maturity, and select the longest maturity bonds in the range up to the desired number.
- If the next bond on the list will cause financial exposure to exceed 60% in the rung, skip this bond and evaluate the following bond on the list.
Section 7

Changes to Constituents

7.0 Changes to Constituents

7.1 Intra Review Changes

7.1.1 In the case that a constituent bond is called, it will be removed from the index on the call date, and replaced with a bond selected on the Selection Date (as defined in Rule 7.2) using the logic described in Rule 6.3.2.

7.1.2 A bond that is downgraded below BBB will be replaced on the fifteenth day of the following month with a bond selected on the Selection Date (as defined in Rule 7.2) using the addition logic described in Rule 6.3.2.

7.1.3 If no replacement bond(s) can be found, the weight of the removed bond(s) will be equally distributed amongst the constituents in the same rung of the ladder.

7.2 Selection Date

7.2.1 The date for selecting replacement bonds in Rule 7.1 will be the later of:

- 5 business days prior to the removal date of a bond that has been called or downgraded;
- the date when the call or downgrade is announced.
Appendix A: Index Calculations

For further details on the index and bond level calculations, please see the Guide to Calculation Methods for the FTSE Fixed Income Indexes which can be accessed using the following link:

FTSE_Fixed_Income_Index_Guide_to_Calculation.pdf

The following notation is used in the following calculations:

- $P_{i,t}$: clean price of a constituent bond $i$ on valuation day $t$
- $A_{i,t}$: accrued interest of a constituent bond $i$ as of valuation day $t$
- $N_{i,t}$: nominal value of a constituent bond $i$ on valuation day $t$
- $\text{Coupon}_i$: coupon rate of a constituent bond $i$
- $y_{i,t}$: yield to maturity of a constituent bond $i$ as of valuation day $t$
- $\text{MacDur}_{i,t}$: Macaulay duration of a constituent bond $i$ as of valuation day $t$
- $\text{ModDur}_{i,t}$: Modified duration of a constituent bond $i$ as of valuation day $t$
- $\text{Dval01}_{i,t}$: Dollar duration of a constituent bond $i$ as of valuation day $t$
- $\text{Convexity}_{i,t}$: Convexity of a constituent bond $i$ as of valuation day $t$
- $C_{i,t}$: value of any coupon payment received from the bond $i$ for the assumed settlement date at time $t$. If none the value $= 0$

Clean Price Index (Capital Index)
The clean price ($PI$) or capital index is given by

$$PI_{i,0} = 100$$
$$PI_{i,t} = PI_{i,t-1} \times \frac{\sum_i P_{i,t} \times N_{i,t-1}}{\sum_i P_{i,t-1} \times N_{i,t-1}}$$

Total Return Index
The total return index ($TRI$) is given by

$$TRI_{i,0} = 100$$
$$TRI_{i,t} = TRI_{i,t-1} \times \frac{\sum_i (P_{i,t} + A_{i,t} + C_{i,t}) \times N_{i,t-1}}{\sum_i (P_{i,t-1} + A_{i,t-1}) \times N_{i,t-1}}$$
Appendix B: Further Information

A Glossary of Terms used in FTSE Russell’s Ground Rule documents can be found using the following link: Fixed_Income_Glossary_of_Terms.pdf

For further information on the FTSE Canada 1-5 Year Laddered Bond Index Series Ground Rules please visit www.ftserussell.com or e-mail info@ftserussell.com. Contact details can also be found on this website.
