Section 5

FTSE Eurotop 100 Index – Annual Review of Constituents

5.0 FTSE Eurotop 100 Index – Annual Review of Constituents

The FTSE Eurotop 100 Index consists of the largest 100 European companies by full market capitalisation (subject to Rules 5.3.3 and 5.3.4), which qualify as eligible for inclusion in the index.

5.1 Review Dates

- 5.1.1 The FTSE Eurotop 100 Index will be reviewed annually in March using data from the close of business on the Monday 4 weeks prior to the review effective date. Any constituent changes resulting from the review will be implemented after the close of business on the third Friday of March (i.e. effective date).
- 5.1.2 Details of the outcome of the review and the dates on which any changes are to be implemented, will be published as soon as possible.

5.2 Responsibilities and Reporting

- 5.2.1 FTSE Russell is responsible for conducting the annual review of constituents for the FTSE Eurotop 100 Index. All eligible securities will be ranked by their current full market capitalisations i.e. before the application of any investability weightings.
- 5.2.2 FTSE Russell is responsible for publicising the outcome of the annual review.

5.3 Rules for Insertion and Deletion at the Annual Review

- 5.3.1 The rules for inserting and deleting companies at the annual review are designed to provide stability in the selection of constituents of the FTSE Eurotop 100 Index while ensuring that the Index continues to be representative of the market by including or excluding those companies which have risen or fallen significantly.
- 5.3.2 At review, all constituents of the FTSE Eurotop 100 must be existing or pending constituents to the FTSEurofirst 300 Index i.e. the review will take into consideration any constituent changes to the FTSE All-World Developed Europe Index and will therefore be conducted before the implementation date of these changes.
- 5.3.3 A company will be inserted into the FTSE Eurotop 100 at the periodic review if it rises to 90th position or above when the eligible companies are ranked by full market value i.e. before the application of any investability weightings.

- 5.3.4 A company in the FTSE Eurotop 100 Index will be deleted at the periodic review if it falls to 111th position or below when the eligible companies are ranked by full market value i.e. before the application of any investability weightings.
- 5.3.5 A constant number of constituents will be maintained for the FTSE Eurotop 100 Index. Where a greater number of companies qualify to be inserted in the Index than those qualifying to be deleted (see Rules 5.3.3 and 5.3.4), the lowest ranking constituents presently included in the index will be deleted to ensure that an equal number of companies are inserted and deleted at the periodic review. Likewise, where a greater number of companies qualify to be deleted than those qualifying to be inserted (see Rules 5.3.3 and 5.3.4), the securities of the highest ranking companies which are presently not included in the Index will be inserted to match the number of companies being deleted at the periodic review.

5.4 **Monitoring of Eligible Companies**

- 5.4.1 The market capitalisation of European companies eligible for inclusion in the FTSE Eurotop 100 Index will be monitored by FTSE Russell. The constituents of the FTSE World Europe Index will be used to conduct the periodic reviews, but see Rule 5.3.2.

5.5 **Reserve Lists**

- 5.5.1 FTSE Russell is responsible for publishing the ten highest-ranking non-constituents of the FTSE Eurotop 100 Index following each quarterly review of the FTSEurofirst 300 Index. This Reserve List will be used in the event that one or more constituents is deleted from the FTSE Eurotop 100 Index during the period up to the next quarterly review of the FTSEurofirst 300 Index. Companies on the Reserve List will be constituents of the FTSEurofirst 300 Index.
- 5.5.2 Where a company is removed from the Index (under Section 6.0), the highest ranking company from the new Reserve List (excluding current index constituents) will replace the deleted company.

Section 6

FTSE Eurotop 100 Index - Changes to Constituent Companies

6.0 FTSE Eurotop 100 Index - Changes to Constituent Companies

6.1 Removal and Replacement

- 6.1.1 If a constituent is delisted, or ceases to have a firm quotation, or is subject to a takeover offer which has been declared wholly unconditional or has ceased to be a viable constituent as defined by the Ground Rules, it will be removed from the list of constituents and replaced by selecting the highest ranking company on the Reserve List (see Rule 5.5) as at the close of the index calculation two days prior to the deletion.
- 6.1.2 The removal and replacement are effected simultaneously and applied with two days' notice.
- 6.1.3 In the event where a company has been deleted from the index following a takeover but retains a listing with a float greater than 5% it will be considered for index eligibility as a new issue following a period of 12 months.

6.2 New Issues

- 6.2.1 Where a company, whether an existing constituent or not, undertakes an Initial Public Offering of a new equity security, that security may be eligible for fast entry inclusion to the FTSE European Index Series. To qualify, the company must be a Fast Entry into the FTSE All-World Developed Europe Index and FTSEurofirst 300. In such a case, FTSE Russell will normally include the company after the close of business on the fifth day of official trading and advance notification will be given accordingly. The security which is the lowest ranking constituent of the index will be selected for removal. In the event of the fifth day of trading being in close proximity to an index review, FTSE Russell may use its discretion to include a fast entrant at the index review date following advance notice.
- 6.2.2 New issues of companies which do not qualify for early entry under Rule 6.2.1 but which meet the criteria for eligible securities will be eligible for inclusion either at the next annual review, if large enough to become a constituent of the FTSE Eurotop 100 Index at this time. The company may also qualify for inclusion to the FTSE Eurotop 100 Index Reserve List following the quarterly reviews of the FTSEurofirst 300 Index.
- 6.2.3 For the purpose of this Rule, a company which is relisted following suspension or is reorganised or renamed or which arises from a demerger or complex reorganisation of another company which is

not an existing constituent, shall not be considered to be a new issue. However, an Initial Public Offering (IPO) which arises from a demerger shall be considered as a new issue.

- 6.2.4 If FTSE Russell decides to include a new issue as a constituent security other than as part of the normal periodic review procedure, this decision must be publicly announced at the earliest practicable time.

Section 12

Corporate Actions and Events

12.0 Corporate Actions and Events

12.1 Full details of changes to constituent companies due to corporate actions and events can be accessed in the Corporate Actions and Events Guide using the following link:

[Corporate Actions and Events Guide.pdf](#)

A Corporate ‘Action’ is an action on shareholders with a prescribed ex date. The share price will be subject to an adjustment on the ex date. These include the following:

Where an index adjustment is required FTSE will provide notice advising of the timing of the change.

12.2 Shares in Issue

Changes to the number of shares in issue for constituent securities are covered in the Corporate Actions and Events Guide.

12.3 Mergers, Restructuring and Complex Takeovers

FTSE Euromid Index

FTSE Euro 100 Index

- 12.3.4 If the effect of a merger or takeover is that one constituent is absorbed by another constituent in the Index, the resulting company will remain a constituent of the Index and a vacancy will be created. This vacancy will be filled by selecting the highest ranking security from the Reserve List (see Rule 5.5) as at close of the index calculation two days prior to the deletion.
- 12.3.5 If a constituent company is taken over by a non-constituent company, the original constituent will be removed and replaced by the largest eligible non-constituent of the FTSEurofirst 300 Eurozone Index Reserve List.
- 12.3.6 If a constituent company is split so as to form two or more companies, then the resulting companies will be eligible for inclusion as index constituents in the FTSE Euro 100 Index providing their respective full market capitalisation(s) (i.e. before the application of any investability weightings) is larger than the smallest existing constituent in the FTSE Euro 100 Index, and if they qualify in all other respects. Where two or more of the new companies remain in the Index, the smallest FTSE Euro 100 Index constituent(s) will be removed, to retain an overall number of 100 companies.
- 12.3.7 If none of the companies resulting from a split remain eligible for the FTSE Euro 100 Index, the original constituent will be replaced by the highest ranking company eligible on the Reserve List (see Rule 7.4) as at the close of the index calculation two days prior to the deletion.
- 12.3.8 Index constituent changes resulting from the split will be determined based on market values at close on the first day of trading of the split. The changes will be effective 2 days later). Consequently, the FTSE Euro 100 Index may have more than 100 companies for three days.

- 12.3.10 If a constituent company is taken over by a non-constituent company, the original constituent will be removed and replaced by selecting the highest ranking non-constituent on the Reserve List. Any eligible company resulting from the takeover will be eligible to become the replacement company if it is ranked higher than any company on the Reserve List as at the close of the index calculation two days prior to completion of the acquisition, based on the combined value of the company after the merger.
- 12.3.11 If a constituent company is split so as to form two or more companies, then the resulting companies will be eligible for inclusion as index constituents in the FTSE Eurotop 100 Index providing their respective full market capitalisation(s) (i.e. before the application of any investability weightings) is larger than the smallest existing constituent in the FTSE Eurotop 100 Index, and if they qualify in all other respects. Where two or more of the new companies remain in the Index, the smallest FTSE Eurotop 100 Index constituent(s) will be removed, to retain an overall number of 100 companies.
- 12.3.12 If none of the companies resulting from a split remain eligible for the FTSE Eurotop 100 Index, the original constituent will be replaced by the highest ranking company eligible on the Reserve List (see Rule 7.4) as at the close of the index calculation two days prior to the deletion.
- 12.3.13 Index constituent changes resulting from the split will be determined based on market values at close on the first day of trading of the spun-off company. Section 14

Indexes Algorithm and Calculation Method

14.0 Indexes Algorithm and Calculation Method

14.1 Prices

14.1.1 The FTSE European Index Series use actual trade prices, where available, for securities with local bourse quotations.

14.1.2 The FTSE European Index Series receive share prices and currency cross rates in real time. Prices are received from the relevant stock exchanges. Reuters cross currency rates are used in the index calculation.

14.2 Calculation Frequency

14.2.1 The FTSE European Index Series are published every 15 seconds during their opening hours, using last trade prices.

14.3 Algorithm

14.3.1 The actual trade price of constituent securities is converted into Euros and the indexes are then calculated using the algorithm described below.

$$\sum_{i=1}^N \frac{(p_i \times e_i \times s_i \times f_i)}{d}$$

Where,

- $i=1,2,\dots,N$
- N is the number of securities in the index.
- p_i is the latest trade price of the component security (or the price at the close of the index on the previous day).
- e_i is the exchange rate required to convert the security's currency into the index's base currency.
- s_i is the number of shares in issue used by FTSE Russell for the security, as defined in these Ground Rules.

Dividends, using their ex dates, are used to calculate the Total Return Indexes in the FTSE European Index Series. All dividends are applied as declared in the FTSE Standard Total Return Indexes.

A series of net of tax Total Return Indexes are also calculated based on the maximum withholding tax rates applicable to dividends received by institutional investors who are not resident in the same country as the remitting company and who do not benefit from double taxation treaties.

Withholding tax rates used in the net-of-tax indexes can be accessed using the following link:

Appendix D: Status of Indexes

The FTSE European Index Series, which are calculated in real time, may exist in the following states:

A) **Firm**

The indexes are being calculated using trade prices from the relevant local European Bourses for all constituents during the hours of the Official Index Period (see Appendix B).

The Official Closing Index for FTSE European Index Series is the last index value calculated at the end of the firm period.

B) **Closed**

When the indexes have ceased all calculations for the day, the message '**CLOSED**' is displayed against the index value.

C) **Held**

During the firm period, the index has exceeded pre-set operating parameters and calculation has been suspended pending resolution of the problem. The message '**HELD**' is displayed against the last index value calculated.

D) **Indicative**

If there is a system problem or situation in the market that is judged to be affecting the quality of the constituent prices at any time when the index is being calculated, the index will be declared indicative. The message '**IND**' will be displayed against the index value.

The official opening and closing hours of the FTSE European Index Series are set out in Appendix B. Variations to the official hours of the indexes are published by FTSE Russell as appropriate.

On European Bank Holidays the indexes are calculated whenever at least one market is trading.
