Section 2

Management Responsibilities

2.0 Management Responsibilities

2.1 FTSE International Limited (FTSE)

2.1.1 FTSE is the benchmark administrator of the index series.¹

2.1.2 FTSE is responsible for the daily calculation, production and operation of the Index Series and will:

- maintain records of the index weightings of all constituents;
- make changes to the constituents and their weightings in accordance with the Ground Rules;
- carry out periodic index reviews of the Index Series and apply the changes resulting from the reviews as required by the Ground Rules;
- publish changes to the constituent weightings resulting from their ongoing maintenance and the periodic reviews;
- disseminate the indexes.

2.2 Amendments to These Ground Rules

2.2.1 These Ground Rules shall be subject to regular review (at least once a year) by FTSE Russell to ensure that they continue to best reflect the aims of the index series. Any proposals for significant amendments to these Ground Rules will be subject to consultation with FTSE Russell advisory committees and other stakeholders if appropriate. The feedback from these consultations will be considered by the FTSE Russell Product Governance Board before approval is granted.

2.2.2 As provided for in the Statement of Principles for FTSE Russell Equity Indexes, where FTSE Russell determines that the Ground Rules are silent or do not specifically and unambiguously apply to the subject matter of any decision, any decision shall be based as far as practical on the Statement of Principles. After making any such determination, FTSE Russell shall advise the market of its decision at the earliest opportunity. Any such treatment will not be considered as an exception or change to the Ground Rules, or to set a precedent for future action, but FTSE Russell will consider whether the Ground Rules should subsequently be updated to provide greater clarity.

¹ The term administrator is used in this document in the same sense as it is defined in Regulation (EU) 2016/1011 of the European Parliament and of the Council of 18 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the European Benchmark Regulation).

6.1 **Review Dates**

6.1.1 The constituents of the FTSE Women on Boards Leadership Indexes are reviewed annually in June using data available after the close of business on the last business day of month prior to the review month, taking into account any additions and deletions planned in the underlying indexes.

6.1.2 Changes arising from the review of FTSE Women on Boards Leadership Indexes derived from an underlying FTSE index will be implemented after the close of business on the third Friday of the review month.

6.1.3 Changes arising from the review of FTSE Women on Boards Leadership Indexes derived from an underlying Russell index will be implemented on the same date as the Russell annual reconstitution in June.
Section 7

Weighting Methodology

7.0 Weighting Methodology

7.1 Index Weights

7.1.1 Constituent weightings in the FTSE Women on Boards Leadership Index Series are based on the proportion of female board members and social policies.

7.1.2 The unconstrained review weight of each constituent in the FTSE Women on Boards Leadership Indexes is:

\[ w_i = \frac{v_i}{\sum_j v_j} \]

where

\[ v_i = w'_i \times A_{WoB}^i \times A_{WoB1}^i \times A_{SP}^i \]

where

- \( w'_i \) is the market capitalisation weight of stock \( i \) in the underlying universe.
- \( A_{WoB}^i \) and \( A_{WoB1}^i \) are the Women on Boards and Women on Boards Industry Neutrality adjustment respectively for stock \( i \) (Rule 6.2).
- \( A_{SP}^i \) is the Social Impact adjustment of stock \( i \) (Rule 6.3).

7.2 Gender Diversity Adjustment

7.2.1 The Gender Diversity Adjustment \( A_{WoB}^i \) is defined as the natural logarithm of the proportion of female board members (Women on Boards Ratio) in excess of the ICB2 industry average. Stocks with missing data or with zero female board representation are allocated a Z-Score of -3.

7.2.2 Board membership data is the most recently available data as of the data cut-off date derived from annual company reports.

7.2.3 The Women on Boards Ratio is converted to a Z-Score and subsequently to an S-Score as detailed in FTSE Global Factor Index Series Ground Rules. The Women on Boards Industry Neutrality adjustment, \( A_{WoB1}^i \) adjusts stock weights to limit industry effects arising from the Women on Boards

2 Russell US related indexes will migrate to the new ICB classification system in September 2020 and FTSE related indexes in March 2021.
stock adjustment described in Rule 6.2.1. For constituent $i$ of industry $H$, the adjustment is calculated as:

$$A_i^{WoB} = \frac{\sum_{j \in H} w_j'}{\sum_{j \in H} A_j^{WoB} \times w_j'}, \forall i \in H$$

7.2.4 Where $w_j'$ is the market capitalisation weight of stock $j$ in the underlying eligible universe.

7.3 Social Impact adjustment

7.3.1 The Social Impact adjustment is defined by the Social Pillar score calculated by FTSE Russell according to the FTSE Russell ESG Data model. The FTSE Russell ESG ratings can be accessed using the following link: ESG Ratings.

7.3.2 The Social Pillar score is converted to a Z-Score and subsequently to an S-Score as detailed in FTSE Global Factor Index Series Ground Rules. The S-Score is the Social Impact adjustment: $A_i^{SP}$.

7.4 Capacity, Constraints and Minimum Stock Weights

7.4.1 The maximum stock level capacity ratio, and constraints are applied to the index as detailed in the FTSE Global Factor Index Series Ground Rules.

7.4.2 A minimum security level weight of 2 basis points is applied to each index.

7.5 Capping

Company level capping of 10 percent is applied to the review weights, using prices as at the close of business five days prior to the review date in June. Capping is implemented using the constituents, shares in issue and free float on the review effective date.
Section 8

Changes to Constituent Companies

8.0 Changes to Constituent Companies

8.1 New Issues

8.1.1 Additions into the FTSE Women on Boards Leadership Index Series will be considered for inclusion at the next annual review.

9.0 Corporate Actions and Events

9.1 Full details of changes to constituent companies due to corporate actions and events can be accessed in the Corporate Actions and Events Guide for Non Market Capitalisation Weighted Indexes using the following link:

Corporate_Actions_and_Events_Guide_for_Non_Market_Cap_Weighted_Indices.pdf

- Capital Repayments
- Rights Issues/Entitlement Offers
- Stock Conversion
- Splits (sub-division) / Reverse splits (consolidation)
- Scrip issues (Capitalisation or Bonus Issue)

A Corporate ‘Event’ is a reaction to company news (event) that may impact the index depending on the index rules. For example, a company announces a strategic shareholder is offering to sell their shares (secondary share offer) – this could result in a free float weighting change in the index.

Where an index adjustment is required FTSE will provide notice advising of the timing of the change.

9.2 Suspension of Dealing

Suspension of Dealing rules can be found within the Corporate Actions and Events Guide for Non Market Capitalisation Weighted Indexes.

9.3 Takeovers, Mergers and Demergers

Section 10

Indexes Algorithm and Calculation Method

10.0 Indexes Algorithm and Calculation Method

10.1 Prices

10.1.1 The FTSE Women on Boards Leadership Index Series uses actual closing mid-market or last trade prices, where available, for securities with local market quotations. Further details can be accessed using the following link:
Closing_Prices_Used_For_Index_Calculation.pdf

10.2 Calculation Frequency

10.2.1 The FTSE Women on Boards Leadership Index Series will be calculated on an end of day basis and displayed to eight decimal points.

10.3 Index Calculation

10.3.1 The FTSE Women on Boards Leadership Index Series are calculated using the algorithm described below:

\[ \sum_{i=1}^{N} \left( \frac{p_i \times e_i \times s_i \times f_i \times c_i}{d} \right) \]

Where,

- i=1,2,...,N
- N is the number of securities in the index.
- pi is the latest trade price of the component security (or the price at the close of the index on the previous day).
- ei is the exchange rate required to convert the security’s currency into the index’s base currency.
- si is the number of shares in issue used by FTSE Russell for the security, as defined in these Ground Rules.
- fi is the Investability Weighting Factor to be applied to a security to allow amendments to its weighting, expressed as a number between 0 and 1, where 1 represents a 100% free float. This factor is published by FTSE Russell for each security in the underlying index.
- $c_i$ is the Weight Adjustment Factor (WAF) to be applied to a security to correctly weight that security in the index. This factor maps the investable market capitalisation of each stock to a notional market capitalisation for inclusion in the index.

- $d$ is the divisor, a figure that represents the total issued share capital of the Index at the base date. The divisor can be adjusted to allow changes in the issued share capital of individual securities to be made without distorting the index.
