Section 1

Introduction

1.0 STI Dividend Index Methodology

This methodology is to be read in conjunction with the FTSE ST Index Series Ground Rules which are available at www.ftserussell.com.

1.1 The FTSE STI Dividend Index does not take account of ESG factors in its index design.

1.2 FTSE Russell

1.2.1 FTSE Russell hereby notifies users of the index series that it is possible that circumstances, including external events beyond the control of FTSE Russell, may necessitate changes to, or the cessation of, the index series and therefore, any financial contracts or other financial instruments that reference the index series or investment funds which use the index series to measure their performance should be able to withstand, or otherwise address the possibility of changes to, or cessation of, the index.

1.2.2 Index users who choose to follow this index series or to buy products that claim to follow this index series should assess the merits of the index’s rules-based methodology and take independent investment advice before investing their own or client funds. No liability whether as a result of negligence or otherwise is accepted by FTSE Russell for any losses, damages, claims and expenses suffered by any person as a result of:

- any reliance on these Ground Rules, and/or
- any errors or inaccuracies in these Ground Rules, and/or
- any non-application or misapplication of the policies or procedures described in these Ground Rules, and/or
- any errors or inaccuracies in the compilation of the index or any constituent data.
1.3 Amendments to These Ground Rules

1.3.1 These Ground Rules shall be subject to regular review by FTSE Russell to ensure that they continue to best reflect the aims of the index. Any proposals for significant amendments to these Ground Rules will be subject to consultation with FTSE Russell advisory committees and other stakeholders if appropriate. The feedback from these consultations will be considered by the FTSE Russell Product Governance Board before approval is granted.
Section 2

Management Responsibilities

2.0 Management Responsibilities

2.1 FTSE International Limited (FTSE)

2.1.1 FTSE is the benchmark administrator of the index.¹

2.1.2 FTSE is responsible for the daily calculation, production and operation of the index series and will:

- maintain records of the index weightings of all constituents;
- make changes to the constituents and their weightings in accordance with the Ground Rules;
- carry out the periodic index reviews of the index series and apply the changes resulting from the reviews as required by the Ground Rules;
- publish changes to the constituent weightings resulting from their ongoing maintenance and the periodic reviews;
- disseminate the indexes.

2.2 Amendments to These Ground Rules

2.2.1 These Ground Rules shall be subject to regular review by FTSE Russell to ensure that they continue to best reflect the aims of the index. Any proposals for significant amendments to these Ground Rules will be subject to consultation with FTSE Russell advisory committees and other stakeholders if appropriate. The feedback from these consultations will be considered by the FTSE Russell Product Governance Board before approval is granted.

¹ The term administrator is used in this document in the same sense as it is defined in Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the European Benchmark Regulation).
Section 3

FTSE Russell Index Policies

3.0 FTSE Russell Index Policies

These Ground Rules should be read in conjunction with the following policy documents which can be accessed using the links below:

3.1 Queries and Complaints

3.1.1 FTSE Russell’s complaints procedure can be accessed using the following link:

FTSE_Russell_Benchmark_Determination_Complaints_Handling_Policy.pdf

3.2 Index Policy for Trading Halts and Market Closures

3.2.1 Guidance for the treatment of index changes in the event of trading halts or market closures can be found using the following link:

FTSE_Russell_Index_Policy_for_Trading_Halts_and_Market_Closures.pdf

3.3 Index Policy in the Event Clients are Unable to Trade a Market

3.3.1 Details of FTSE Russell’s treatment can be accessed using the following link:

FTSE_Russell_Index_Policy_in_the_Event_Clients_are_Unable_to_Trade_a_Market.pdf

3.4 FTSE Russell Policy for Benchmark Methodology Changes

3.4.1 Details of FTSE Russell’s policy for making benchmark methodology changes can be accessed using the following link:

FTSE_Russell_Policy_for_Benchmark_Methodology_Changes.pdf
Section 4

STI Dividend Index Methodology

4.0 STI Dividend Index Methodology

4.1 Review Methodology

4.1.1 The index will represent the cumulative value of ordinary declared cash dividends announced and paid by the individual constituents of the underlying STI, calculated in terms of index points. All dividends and corporate actions are applied in the same way as in the STI.

FTSE Russell will rebase the STI Dividend Index to 0 at the start of the first trading day of the new calendar year in January each year.

4.2 Ex-Dividend Adjustment

4.2.1 The ex-dividend (xd) adjustment represents the value of dividends declared by constituent companies on the xd date expressed in index points. The xd adjustment year to date is the calculation on a cumulative basis for the period between and including the first trading day in the calendar year in January to the last trading day in December of the same year. xd adjustments are based on declared dividends. The xd adjustment is calculated as follows:

\[
\text{Market Value of Dividends} / \text{Latest Index Divisor}
\]

Latest Index Divisor

If a company declares a dividend in a currency other than Singapore Dollar, the published Singapore Dollar equivalent will be used, if available prior to the xd-date (for clarification, where no Singapore Dollar equivalent is available prior to the xd-date then FTSE Russell do not wait for the company to publish the Singapore Dollar rate). If there is no Singapore Dollar equivalent, the dividend will be converted to Singapore Dollar using the appropriate Singapore Domestic Indexes closing rate the day before the stock goes xd.
If A plc and B plc each declared a dividend payment with an xd date of today, the following calculation would occur:

<table>
<thead>
<tr>
<th>Company</th>
<th>Dividend</th>
<th>Shares</th>
<th>Free Float Factor</th>
<th>Market Value (SGDm)</th>
<th>xd Adjustment (points)</th>
</tr>
</thead>
<tbody>
<tr>
<td>A plc</td>
<td>12.56</td>
<td>61,443</td>
<td>1.00</td>
<td>7,717.2</td>
<td>1.97</td>
</tr>
<tr>
<td>B plc</td>
<td>14.00</td>
<td>22,579</td>
<td>0.75</td>
<td>2,370.8</td>
<td>0.61</td>
</tr>
<tr>
<td><strong>Total xd Adjustment for Index</strong></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td><strong>2.58</strong></td>
</tr>
</tbody>
</table>

Index Divisor = 3,918.36

Index Value (t-1) = 50.00
Index Value (t) = 52.58

The method for calculating the xd adjustment uses the divisor as at the close of business on the preceding day after implementing any capitalisation changes. Where a company has more than one line of shares included in the indexes, the xd adjustment is calculated separately for each line.
Appendix A: Further Information

A Glossary of Terms used in FTSE Russell’s Ground Rule documents can be found using the following link: 
Glossary.pdf
