

THEMATIC CLASSIFICATION DATA FORM

Overview

The FTSE Thematic Index Series seeks to provide exposure to a theme or concept that in general cannot be captured by traditional classification schemes.

Allocation of Companies to Themes and Set of Theme Keywords

Company membership of a theme is determined via a Dynamic Classification Algorithm. The algorithm classifies companies using their Worldscope Company Descriptions and determines via a set of keywords which companies are most closely associated with the theme of interest.

For further details please refer to the FTSE Thematic Index Series Ground Rules which can be accessed using the following link:

[FTSE Thematic Index Series Ground Rules](#)

For the set of keywords used in a theme, please contact info@ftserussell.com

Thematic Classification Data Form

This form should be completed to query or challenge a security's membership of a theme or a keyword used in the theme. Keyword challenges will be restricted to the periodic annual review per timing indicated in the FTSE Thematic Index Series Ground Rules. Please include any documentary evidence in support of your claim.

Please return this completed form to info@ftserussell.com

If you have any questions please do not hesitate to contact FTSE Russell on:
