FTSE UK Index Series - Market Consultation

Update

26 March 2026

Further to the notice published on [27 January 2026](#), FTSE Russell would like to thank all respondents for the feedback to the recent FTSE UK Index Series [market consultation](#) on a proposal to align the minimum free float requirement for non-UK incorporated companies with that of UK incorporated companies.

After considering the responses to the consultation, FTSE Russell would like to confirm that the update to the minimum free float criterion will be implemented as proposed.

Accordingly, with effect from the June 2026 index review, both UK and non-UK incorporated companies with a minimum free float of 10% will be eligible for inclusion to the FTSE UK Index Series, subject to satisfying all other criteria.

For the avoidance of doubt, companies included in the FTSE UK Monitored List on the index review cut-off date on 02 June 2026 with a minimum free float of 10% will be eligible for inclusion to the FTSE UK Index Series at the June 2026 index review.

The applicable ground rule documents will be updated in due course.
