Inclusion of BSE (India) as an Eligible Exchange

20 August 2026

FTSE Russell confirms that based on the criteria detailed in Appendix A of the FTSE Global Equity Index Series (GEIS) Ground Rule the BSE (India) meets the requirements to be classified as an eligible exchange within FTSE Russell equity indices.

Consequently, stocks that are listed on the Main Board of the BSE will be evaluated for index inclusion, subject to meeting the required eligibility screens. To provide sufficient advanced notification for market participants BSE listed stocks will be assessed for index eligibility from the FTSE GEIS **March 2027** index review, based on data as of the close on 31 December 2026. For the intra-quarter Fast Entry assessment, any IPO stocks listing on the Main Board of BSE will be eligible for fast track screening effective immediately.

For an Indian company that is dual-listed on both National Stock Exchange of India (NSE) and the BSE, if the company passes the liquidity tests for both NSE and BSE securities, the NSE security will be selected for eligibility due to the National Stock Exchange of India having a higher share of international institutional investors participation. For details, please refer to the updated section 3.5 in the FTSE Global Equity Index Series – Guide to Calculation Method for the Median Liquidity Test.

The updated list of eligible market segments can be found in the Appendix A: Eligible Exchanges and Market Segments of the FTSE Global Equity Index Series Ground Rules.
